Personalized Celebrations and Memorial Options

Altogether™

Overview

How do you celebrate a life? By creating an occasion as individual and memorable as the person being celebrated.

A traditional funeral or memorial service is a time-honored way to recognize the passing of a loved one.

But it's far from the only way. An intimate lunch, a poetry reading, a party in a field ... as long as the event is in keeping with the personality and wishes of the celebrant, there's no wrong way to go.

Every aspect of the event can be customized to reflect your loved one's personality. The music, the food, the location - all can be orchestrated to reflect the many sides of your loved one.

Memorialization is another area where you can let your loved one's individuality shine through. Cemetery placements don't have to be traditional. They can be made to show a bit – or a lot – of personal flair.

Cremation Pedestals

A cremation memorial site that is made of stone and supports a decorative top of your choosing, such as a statue or an urn. We have various personalization options for families to choose from.

Custom Cremation Gardens

A beautiful option for family members who would like to have their ashes returned to the earth naturally while still having a permanent memorial marker for the family to visit and pay their respects. We can work with you to design a meaningful permanent memorialization marker in the cremation garden to honor your loved one.

Ground Burial Options

Private Family Estates

While most burial options are private, family estates allow for multiple family members to be buried in the same area, separated from other plots. It is typically bordered by a low wall or hedge, so families can have a bit of privacy while visiting their loved ones.

Community Gardens

A beautifully maintained garden designed to be a peaceful, park-like setting for families to remember their loved ones.

Upright Monument Gardens

Similar to community gardens, upright monument gardens are designed to be a peaceful outdoor space for families to gather and remember their loved ones outdoors. Monument gardens also allow for customizable plaques designed by the family to best represent and share the life of their loved one.

The background of the entire image is a solid teal color. On the right side, there are large, white, fluffy clouds that appear to be rising or billowing upwards, creating a sense of movement and lightness. The clouds are more concentrated on the right and fade out towards the left.
